You can find our terms and conditions at www.plasteurope.com

Subscription rate

The use of all content and commodity exchange offers as well as the subscription to our newsletter are free of charge for users.

Target groups

Management and specialists of the plastics industry, converters, compounders, traders and recyclers as well as service providers.

Brief description

The information portal Plasteurope.com is part of KI Group, one of the leading content providers for the plastics industry. This site has been offering daily business news and reports, a suppliers guide, articles on new products and more since 2001.

The job opportunities section, powered by the German-language plastics portal KunststoffWeb, is one of Europe's most popular job portals.

In addition, Plasteurope.com offers its readers special price reports for standard and engineering thermoplastics, composites and recycle, the latest on polymer prices as well as the Plastixx polymer price index. Other useful sources of information are the calendar of events and numerous video clips about the plastics world.

Some of the articles offered by Plasteurope.com are the premium content of **PIE – Plastics Information Europe (www.pieweb.com)**.

Homepage

The main page Plasteurope.com visitors view, with the most important news from the industry as well as key topics and sections.

News

Industry

Every trading day, the latest relevant news as well as market, corporate and technical information in partnership with **PIE – Plastics Information Europe**, including a large news archive with over 26,000 articles.

Polymer prices

Current price reports and brief reports on price movements for standard and engineering thermoplastics.

Job opportunities

Job market specifically for the English-speaking plastics industry. It includes current job offers and the option to place ads for job vacancies free of charge.

Databases and listings

Material databases

The databases offer over 187,000 technical data sheets for plastics additives and materials worldwide. Plasteurope.com provides access to the SpecialChem's Universal Selector™.

Suppliers guide

The large reference directory for raw materials and additives, plants and machinery as well as semi-finished products. Entries and usage are free of charge.

Events

The events calendar contains trade fairs, conferences, seminars and advanced training offers.

Associations

Contact information of European associations and institutions are listed here.

Videos

Videos from the plastics industry covering companies, trends and events.
